INTRODUCTION

The 1986-87 Pennsylvania Public Library Statistics publication is a compilation of data as reported by public libraries in the 1986 and 1986-87 Public Library Annual Reports.

Libraries have the option of following a calendar year or a July-June accounting schedule. Therefore, the July-June schedule libraries report on the use of 1986-87 state aid funds while calendar year libraries report on 1985-86 state aid funds. The majority of libraries report on a calendar year.

This publication is separated into two main categories of libraries. Parts I and II reflect the operations of state aided libraries. Parts III and IV contain data on non-state aided libraries. Format and data presented is the same for both types of libraries.

Libraries are arranged by counties and within the county by the municipality in which the library is located. System headquarters libraries are identified by an "H" preceding the library location. An "M" identifies system member libraries.

Parts I and III contain four tables each reporting on collection and financial operations.

Parts II and IV summarize by District Library Center the data contained in Parts I and III.

NOTE: The combined total of state aided and non-state aided library data is shown on Pages 101-104.

Part V is a grouping of state aided libraries by size of service area and provides other data about the library. Following each group of libraries is the average for that size library.

Part VI provides the same information for library systems as is provided for local libraries in Part V. The system statistics are a total of the data from system headquarters and member libraries.

Information for bar charts and pie charts reflects the combined statistics of state aided and non-state aided libraries.

DEFINITION OF DATA ITEMS:

Population Served: For a local library it is considered the population of the municipality the library serves free of charge. For libraries within a system, it is the population which has predominant access to the library

This population figure is used to compute all per capita calculations.

In counties where service areas overlap, the total county population of the latest census figure is used. The population served by a county library is generally the county population less the population served by other local libraries in the county.

Hours Open: The number of hours a library is open on the regular weekly schedule.

Registration: Two columns of statistics record the number of new borrowers registered during the year and the total as of the end of the reporting period.

Staff: The number of full-time equivalents based on at least a 35-hour week. The employes are classified by education or certification. The "Other" category includes clerical staff and others who do library work. Janitorial, maintenance and security employes are not included.

Volunteers: The data for volunteers is reported in full-time equivalents, counting only those who regularly work at least five hours weekly.

Catalog Items EOY (End of Year): The figures show the total number of items in the library's material collection including those of branches, bookmobiles and other outlets.

Periodicals: For individual libraries, generally the figure is the total number of titles currently received by the library. In some cases, it may be the number of subscriptions.

Circulation: The total of books and other materials lent by the library during the year and the number of items circulated per capita.

Turnover Rate: This figure is determined by the Total Circulation divided by Cataloged Items EOY.

Interlibrary Loans: The number of items of materials lent and borrowed by each library.

FINANCIAL CATEGORIES

Local Government Income: Total tax income or appropiations from local government units and school districts. Included in this figure are the School Board and Indirect Federal Aid amounts.

State Aid: State aid received by a local library, county library, district center and regional library resource center. Included are state funds received by the Carnegie Library of Pittsburgh and the Free Library of Philadelphia to operate libraries for the blind and physically handicapped.

Federal Aid: Money received under the Library Services and Construction Aid (LSCA) and similar federal programs, excluding revenue sharing money.

Other: Funds received from all other sources such as endowments, United Fund, fund drives, gifts, fines, fees and so on.

School Board: Money recieved from school districts is isolated under this heading. School district income is also included under the heading "Local Government Income."

Indirect Federal Aid: Money not specifically intended for libraries and received indirectly under federal programs through municipal governments or other agencies. Included are revenue sharing funds and the salaries of employment program staff. These funds are also included under the heading "Local Government Income."

Wages and Salaries: Wages, salaries and fringe benefits of all library staff including janitorial and maintenance staff.

Library Materials: The expenditures for books, periodicals and other library materials.

Other Operating: Expenditures for utilities, rent, supplies, etc. The amount includes expenditure for furniture, equipment, repairs and alterations.

Total Operating: The sum of the previous three columns.

Capital Expend: Monies expended for land, new buildings, alterations or additions which add floor area, and for the initial furniture and equipment for the new area.
